## PROFESSIONAL EXPERIENCE

### Android Developer, Multimedia Nordic AS

*December 2019 - December 2020*

*Project:*

#### **ROOMR - professionally managed platform for the room renter.**

- Interaction with clients.
- Provide technical solutions to enhance the quality and performance of the application.
- Design & develop architecture solutions for the Android app.
- Develop new features.

- Performed Unit Testing using JUnit5.

*Technologies:* Kotlin, Android SDK, Unit Testing, Kotlin Coroutines, Dagger 2, MVVM.

## **Android Developer, Multimedia Nordic AS**

*December 2018 - December 2020 (2y)*

*Projects:*

### **BrewBook - Android client for remote control of an IoT device.**

[Brew Book](#) provides unique beer brewing possibilities that will satisfy any beer brewer.

- I single-handedly wrote the Android app
- Made unit test coverage by 30%
- Set up Firebase Test Lab with a custom scenario which helped to found bugs and UI problems in different mobile devices
- I work with IoT device which controls the brewing processes
- The customer brewed beer by himself using our device and the Android application

*\*Multimedia Nordic is a full-service agency, carefully designing and creating useful digital products, brands.*

## **Android Developer, 2K-Group**

*July 2017 - December 2018 (1y 6 months)*

*Project:* **VPN Shield - Automatic VPN client for Android.** [VPN Shield on Google Play](#)

- Improved VPN connection which increased average daily user sessions and good users reviews
- Added new payment systems(Samsung Pay, Amazon Pay) support that increased sales through the app by 25%
- Fixed bugs in auto-deployment build scripts
- Refactored legacy Java code to Kotlin which reduced the amount of code and bugs

*Technologies:* Android SDK, Android NDK, Dagger 2, Amazon SDK

*\*2K-Group is Kyiv(Ukraine) based IT company focused on providing Mobile Application Development and Remote Development Center (RDC) services to worldwide clients.*
